## INVESTMENT OBJECTIVE & STRATEGY

The Fund seeks long-term capital growth through an actively managed portfolio of stocks. The Fund's investment process focuses on security selection and portfolio construction. The Adviser seeks to construct a diversified portfolio of reasonably valued stocks of high quality companies.

### Security Selection

The Adviser seeks to identify and invest in companies that exhibit higher quality business and financial characteristics. The Adviser considers higher quality companies to be those judged to have sustainable business models, financial stability, prudent capital management, and financial statements that indicate past economic success. Using both quantitative and qualitative assessments, the Adviser seeks to highlight firms for investment primarily on the basis of business stability, profitability, balance sheet sustainability, accounting practices, and growth opportunities. The goal is to identify companies that exhibit a quality profile judged by the Adviser to be desirable relative to the universe and each company's sector peers.

### Portfolio Construction

The Fund's investments, in aggregate, will be reasonably valued and possess portfolio characteristics the Adviser judges to be superior to those of the market. The Fund is broadly diversified across economic sectors. The Fund will generally hold between 75 and 100 stocks, and attempts to maintain a cash and/or money market instrument position of no more than 5% of its net assets.

## Environmental, Social & Governance Guidelines

The Fund incorporates ESG guidelines in connection with the selection and management of all portfolio holdings. The Fund actively promotes corporate accountability and positive change through company dialogue and shareholder resolutions, proxy voting, public policy initiatives, and educational outreach. In doing so, the Fund encourages companies to recognize that the sustainability of their profits is connected, in part, to how they treat workers, customers, communities and the natural environment as valuable, long-term assets.
