Kimberly D. Gluck, CFA Joins Boston Trust's Board of Directors

Boston, MA – Kimberly D. Gluck, CFA, a Senior Portfolio Manager at Boston Trust & Investment Management Company, has been elected to the firm's Board of Directors and will assume the title of Managing Director.

Ms. Gluck joined the firm in 2011 and quickly assumed full responsibility of key client relationships. Since that time she has expanded the high net worth and institutional client base of Walden Asset Management, the socially responsive investment practice of Boston Trust.

"Kim has a combination of experience, intelligence and warmth that make her the kind of portfolio manager our clients especially value," said Domenic Colasacco, President and CEO of Boston Trust. "We look forward to Kim bringing her client focus and business perspective to the Board."

Ms. Gluck stated, "I have greatly enjoyed working with the talented and committed employees of Boston Trust/Walden Asset Management over the past four years. I also feel a special kinship with our clients who care so deeply about social justice and the environment. It is an honor to be asked to serve in this new role."

Robert Lincoln, one of the original firm shareholders who retired in 2011, was named Director Emeritus. "Throughout his tenure, Bob demonstrated a high level of strategic thinking, practical application of ideas and, in the process, earned great respect from clients and colleagues alike. While Bob will no longer have a formal vote at the table, we all look forward to many more years of his sage counsel in his new role."

About Boston Trust and Walden Asset Management

Boston Trust is an employee-owned, state-chartered trust company that provides investment management and fiduciary services to institutions and high net worth individuals. Boston Trust specializes in actively managed, high quality equity and balanced strategies and manages approximately \$8 billion in client assets.

Walden Asset Management, the socially responsive investment practice of Boston Trust, has been a leader in integrating environmental, social and governance (ESG) research and shareholder engagement into the investment process since 1975.
